LUXURY LIVING MADE POSSIBLE

Kitchens | Solid Surfaces | Wardrobes | Engineered Timber Doors | uPVC Doors & Windows | Aluminum Doors & Windows

About Us

At Centrepoint we pave the way for new ideas in bringing living spaces to life. With over a decade of experience, we offer professional one-stop solutions through our product portfolio of reputed brands.

Our Advantage:

Global brands:

You have the assurance of premium standards and the guarantee of excellence that come with globally recognised brands.

Proven proficiency:

Our designers are trained overseas and our installation crew are highly skilled with a wealth of experience. In addition to hundreds of individual homes, we have provided interior solutions to sought after apartment complexes such as Emperor, Empire, Fairway, Fairmount, Hedges Court and Trillium and others.

Our recently set up state of the art uPVC fabrication and double glazing plants are equipped with German machinery offering premium quality.

Our Values:

The values that drive us combine ethics and professionalism; and we promote sustainability and environmental responsibility through a product portfolio that focuses on energy efficiency and saving natural resources.

Our Products:

Spanning 6 categories our product portfolio comprises a collection of brands reputed for their excellent quality and longevity. Combining attention to detail with fine materials and finishes they deliver meticulous craftsmanship. Kitchens that range from globally acclaimed luxury to made to measure value; versatile wardrobes, engineered timber doors, state of the art uPVC products, solid surfaces and flooring solutions - the brands we present offer a wealth of choice.

LEICHT[®]

Cutting Edge Innovations

L-BOX | Organized Storage

You can design the interiors of drawers and pull-outs simply, individually and variably. Naturally lacquered oak dividers, knife blocks and boxes of different sizes are positioned on a anti-slip for easy and safe storage.

L3 | Transperent Drawer Sides

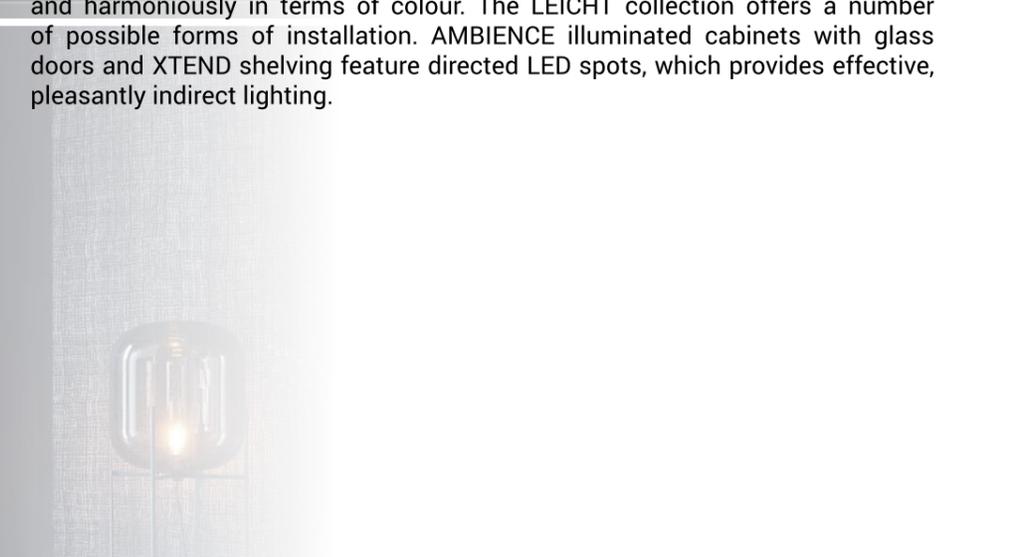

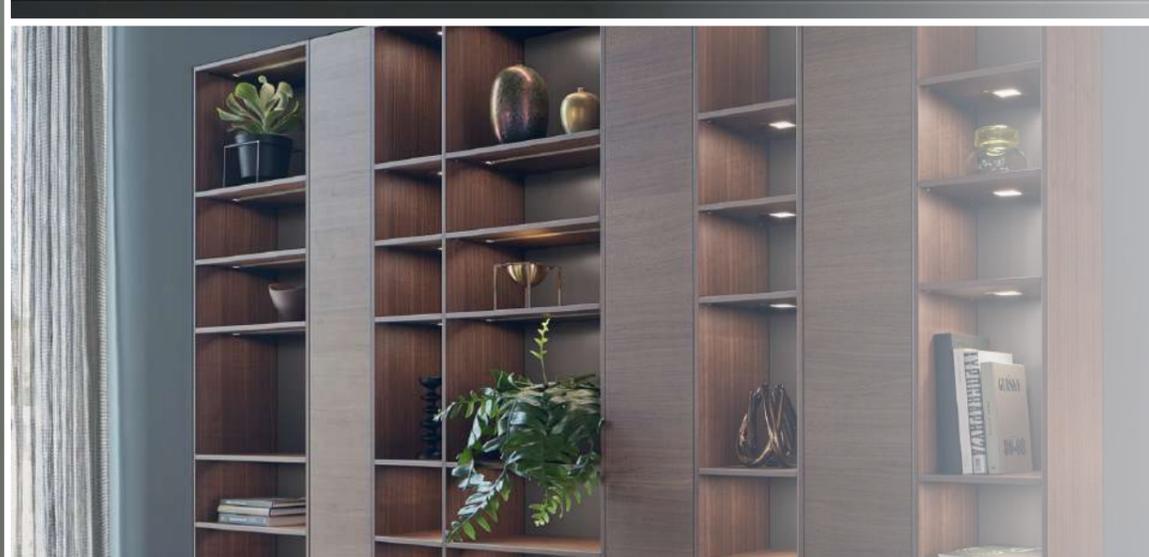

LEICHT is the only one in the worldwide that offers full transparency of the pullout drawers that feature large expanses of top-quality labelled clear glass and elegance - and at the same time allows you to see exactly what's inside.

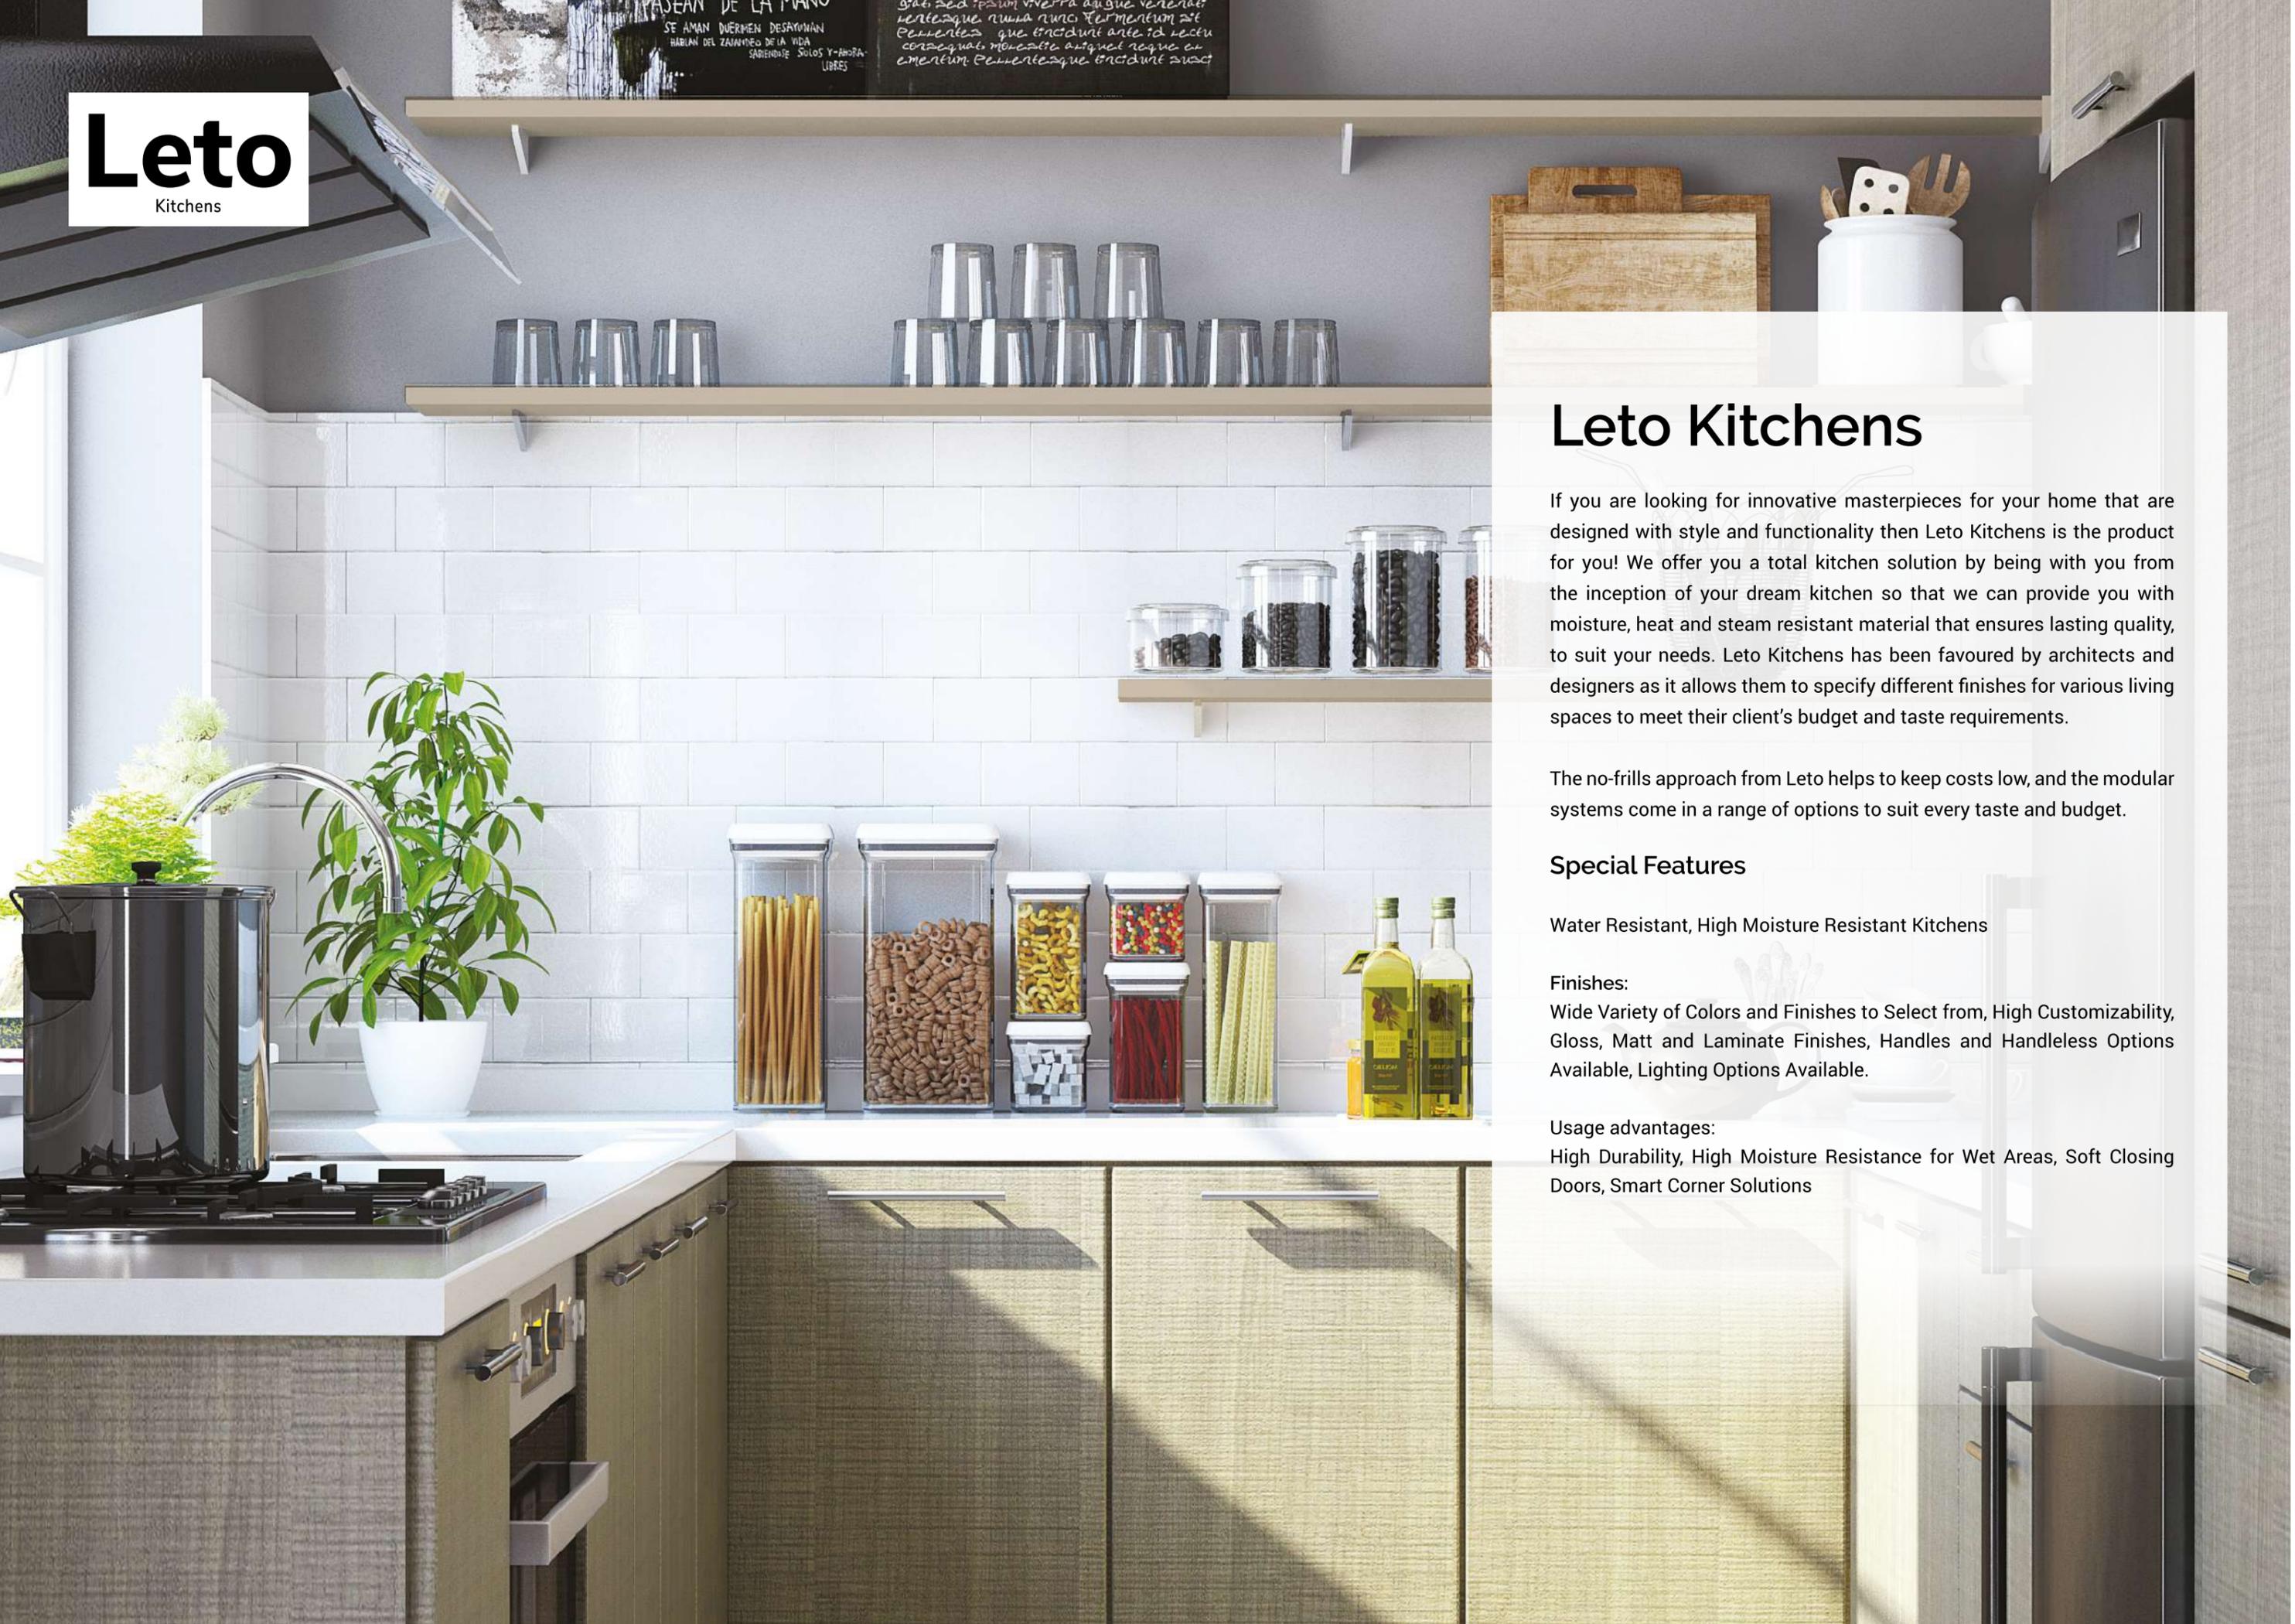

Fully Extendable Drawers

LEICHT focuses on convenience and optimizing storage by offering fully extendable drawer runners with extra cushioning for smooth and silent closing. This technology enables a 100% visibility of the drawer when opened and easy & quick accessibility of your storage items.

Design Lighting

LEICHT implements a specially developed, premium LED lighting that exactly blends with other elements of the kitchen. Lighting can be designed homogeneously and harmoniously in terms of colour. The LEICHT collection offers a number of possible forms of installation. AMBIENCE illuminated cabinets with glass doors and XTEND shelving feature directed LED spots, which provides effective, pleasantly indirect lighting.

Leto Kitchens

If you are looking for innovative masterpieces for your home that are designed with style and functionality then Leto Kitchens is the product for you! We offer you a total kitchen solution by being with you from the inception of your dream kitchen so that we can provide you with moisture, heat and steam resistant material that ensures lasting quality, to suit your needs. Leto Kitchens has been favoured by architects and designers as it allows them to specify different finishes for various living spaces to meet their client's budget and taste requirements.

The no-frills approach from Leto helps to keep costs low, and the modular systems come in a range of options to suit every taste and budget.

Special Features

Water Resistant, High Moisture Resistant Kitchens

Finishes:

Wide Variety of Colors and Finishes to Select from, High Customizability, Gloss, Matt and Laminate Finishes, Handles and Handleless Options Available, Lighting Options Available.

Usage advantages:

High Durability, High Moisture Resistance for Wet Areas, Soft Closing Doors, Smart Corner Solutions

Leto Wardrobes

With modular systems that come in a range of options our Leto wardrobes bring you quality and affordability in one. We offer the option of planning and designing individual spaces to find the solution that fits best, and there is an array of doors, shelving, drawers and handles to suit as well.

The Advantages

Best Value:

Reliable quality at competitive prices, the modular systems offer an extremely cost effective solution.

No Frills:

Pay for the components needed with the option of having other value added services at a nominal cost.

Trusted Quality:

Nearly 10 years of industry experience.

Sandor[®]

Hallmark in Quality Door

Hallmark in Engineered Timber Doors Since 1979

⚙️ Functionality

RESIDENTIAL - Apartments

High-rise buildings present special fire safety concerns. Fire-rated doors can help contain the spread of fire and provide a safe exit passage for residents. All Sandor Fire Resistant Doors are designed, engineered, tested and certified to various international standards of stability, integrity and insulation.

Given the higher capacity living in condominiums and apartments, some degree of sound insulation is important for a greater sense of privacy and comfort. Sandor's range of acoustic-rated products provides effective sound reduction and can fulfill most requirements.

COMMERCIAL

We have a vast selection of door products to meet the diverse needs of the commercial sector. Some key considerations of commercial projects include fire safety, security measures, acoustic isolation, and environmental settings.

👁️ Aesthetics

RESIDENTIAL - Apartments / Houses and Villas

Doors add to a building's aesthetic appeal. Sandor has a wide array of door finishes to help you create attractive communal and living interiors.

Doors add to a property's aesthetic appeal. Sandor has a wide array of door finishes to help you create attractive communal and living interiors.

COMMERCIAL

Corporate image is important in the commercial sector. Doors are an important architectural feature that can increase the aesthetic value of the office environment. Sandor's wide selection of finishes and flexible design techniques ensures that we are able to meet the specific aesthetic requirements of each project.

🕒 Durability

HOSPITALITY

Hotels experience high traffic volumes throughout the day from guests, diners, conference attendees and hotel personnel. We are acutely aware that durability and reliability are key concerns. Our Sandor doors are designed for ease of operation, and maximum durability

high performance
solid surface

Advantages

Great Sanitation

- Easy maintenance
- Non-porous material suppresses moulds and germs
- Chemical resistance

Outstanding product quality

- Light but durable to scratches and high impacts
- Smooth, seamless workability

Various designs

- Able to maximise light effects by controlling thickness and transparency
- Able to express designers' ideas with free workability on its curved surface

Various colors and patterns

- About 150 kinds of various colors from natural patterns to vivid colors
- Color consulted with world's famous color trend professionals

A subsidiary of the global giant Staron[®] specialises in solid surfaces and quartz surfacing materials. Combining high technology and unique design in an innovative range, Staron Solid Surfaces can turn any remodeling project into a fully-functional work of art.

The incredible versatility of Staron products inspires novel ideas and the guarantee of lasting quality and durability makes Staron the undisputed choice for both commercial and residential purposes.

Advantages

LONG-LASTING STRENGTH

Most uPVC tends to change its colour and property due to sustained exposure to UV radiation. The engineered blend used in NIUTEK windows is UV stabilised that gives it a long life.

HEALTHIER INDOOR AIR QUALITY

The usage of high quality wool pile along with dual layer sealing system in NIUTEK windows prevents dust and pollution from entering your home. This ensures the air inside your home is cleaner and healthier.

LEAD-FREE

NIUTEK windows are lead-free in line with the global trend to eliminate the use of lead in the construction industry. So, you can be sure about the health of your family

ENERGY-EFFICIENT

The multi-chambered design of NIUTEK profiles prevents the transfer of heat inside your house. This makes your house energy efficient by reducing your air-conditioning cost significantly.

SAFE & SECURE

Every NIUTEK window is reinforced by a concealed GI section which is designed based on the wind pressure of that region, providing additional strength and stability. Making your home safe and secure.

WEATHERPROOF

The TPV gasket in NIUTEK windows keeps rainwater and wind away from your home, while the impact modifier provides resistance to the window during extreme weather conditions. This makes a NIUTEK window almost invincible in any kind of weather.

Centrepont brings you the very best in quality together with beauty, practicality and durability so that you and your loved ones enjoy the best of your home. Take your pick from a variety of uPVC / Aluminum doors and windows available in a range of traditional or contemporary designs. Our products are manufactured to international standards using high levels of expertise in fabrication, installation and service.

Projects Completed by Centrepoint

At Centrepoint we are geared to meet any requirement: from small compact projects with a few apartments, to more complex and large-scale projects with many apartment units. We have the largest and the most experienced installation teams with us, giving us the unprecedented advantage of being able to complete large projects in the shortest possible period.
