The modular
kitchen system for everyone

Self
Involvement
Concept

Kitchen | Wardrobe | Appliances | Accessories

www.kubiq.com.my

◆ About the company

Kubiq was incorporated with the objective to offer quality yet affordable modular kitchen systems in response to the growing demand in the mass market segment, which represents a huge market share in the kitchen systems industry. Coupled with customers' increased price sensitivity and emphasis on product value, the Kubiq brand aims to meet the needs of a fast-expanding yet discerning customer base. Kubiq is a wholly owned subsidiary of Signature International Berhad, a public-listed company behind the well-known SignatureKitchen brand founded in 1994.

Through its groundbreaking and innovative approach, Kubiq has introduced a new and creative kitchen planning experience through a "self-involvement" concept which gives maximum flexibility in every step – from hands-on design, planning, coordination of delivery and the final installation. This no-frills approach helps to keep costs low and put control back in the hands of the customer, much in the same way low cost airlines operate.

" With Kubiq, everyone can now afford and own a quality kitchen system that suits their lifestyle, budget and preferences! "

◆ Why buy Kubiq

LOW PRICE
- Kubiq operates on low overheads which come from low rental, no designer salaries, no sales commissions and no project management costs. All these translate to huge savings which are passed down to you through our amazingly low prices.
- Through our bulk purchases and mass production you benefit from economies of scale compared to custom-made orders – resulting in an extremely cost-effective solution.

NO FRILLS
- You only pay for the price of the product, with the option of having other value-added services at a nominal cost.
- Our modular kitchen systems have been designed from our years of experience to suit a wide variety of needs, and complement each other perfectly. This allows you to tailor your choice and pay only for the components you want.
- A transparent and detailed component price list enables you to manage your own budget without hidden costs and fees.

WAIT NO MORE
- Kubiq's *ezikit,* the patented 3D kitchen miniature modeling kit – our very own interactive design and quotation tool – you can complete the design and obtain a quotation within a few minutes without having to come back on another day.
- Most of your choices are in stock, you can usually take home your purchase within the same day once payment is made. You even control and manage your own delivery and installation schedule.

TRUSTED QUALITY
- Kubiq products come from the same sources as Malaysia's leading kitchen manufacturer with nearly two decades of industry experience and backed by a publicly listed parent company.

kubiq™
Kitchens Your Way

♦ # At Kubiq,
we let you be in charge!

Kubiq's no-frills approach is your best cost saving choice.

Did you know that you are open to all these choices and you can save so much in your kitchen cabinet and wardrobe purchase?

✓ 1) **Kitchen design and plan**
Kubiq's *ezikit* is the world's simplest kitchen planning kit for anyone.

✓ 2) **Buy practical kitchen components**
You know exactly the price of each component, so you can cross out what is not necessary!

No hidden cost

✓ 3) **Pick the items you need**
We are transparent to let you know the cost of each item. So, pick according to your budget!

✓ 4) **Choose your services**
We even let you drive the goods home for *even more savings.*

✓ 5) **You make the CALL!**
The final step is the installation arrangement. You just need to call them to book an installation date!

You can take charge of the final outcome, paying only for what you need and not for what you don't.

Self Involvement Concept

◆ Why pay someone to do it
when you can do it yourself?

Kubiq's self-involvement concept allows you to be involved in the entire buying process from planning, design, delivery and installation. This way, you can take charge of the final outcome, paying only for what you need and not what you don't.

Your involvement has eliminated the overhead cost for designer and kitchen consultant, and savings are passed on to you through our fabulously lower prices.

With Kubiq, you can actually enjoy the experience of completing your own kitchen in the exact way you want. You can now give your home the quality look that it deserves with a price tag that doesn't cost an arm or a leg.

5 EASY STEPS TO GET YOUR KITCHEN DONE!

1

Visit Kubiq to find out the easy way to get your kitchen design and quotation instantly.

2

Use the ezikit, a patented 3D kitchen miniature modeling kit; with this, you can design your own kitchen and enjoy the fun experience like never before.

3

After completed your design, our advance computer scanning process will generate quotation instantly from the 3D miniature modeling.

4

Select your choice of material and you can now make your order **within the same day**.

5

Coordinate with 3rd party transporter and installer to get your kitchen delivered and installed.

Your kitchen is now completed.

◆ Plan and design your kitchen in 3 easy steps.

STEP 1 - MEASURE ACCURATELY

Measure your room accurately allowing the existing fixtures such as doors and windows as well as any specifications for your appliances.

You will need: Measuring tape / Pencil / Pen / Calculator

STEP 2 - SELECT YOUR LAYOUT

Start by considering your current layout and what you like and dislike. A functional kitchen often centres on the position of the sink, oven/cooktop and refrigerator. To maximise funtionality, it is ideal to position these in an imaginary triangle with a minimum of 1.2m between each workstation.

Choose one of the following layout templates to start your design:
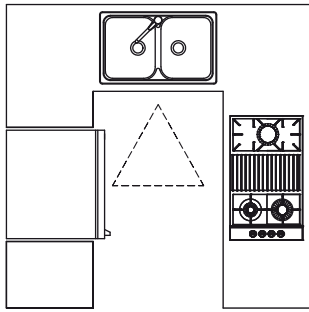

◆ U-Shape

The U-Shape design has become a popular choice for kitchen layouts. It is most commonly suited to larger kitchen spaces and is a perfect layout for families who spend a great deal of time in the kitchen. Providing efficiency and functionality, the U-shape design also offers maximum cabinet and benchtop space.
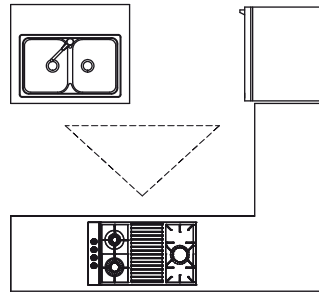

◆ L-Shape with Island

The L-Shape with island design has all the qualities of the standard L-shape layout however provides an additional workstation within the kitchen area. An island benchtop in this format is most suited to larger, more spacious kitchens. Additional cabinets and benchtop work space also makes this kitchen family friendly and an entertainer's paradise.
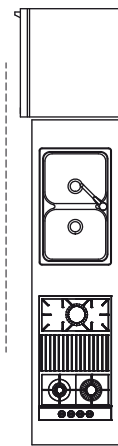

◆ I-Shape

The I-Shape kitchen is ideal for small and narrow kitchen areas however can also comfortably accommodate larger kitchens. The I-shape is a simple kitchen design and is often the most inexpensive in relation to other kitchen layouts.
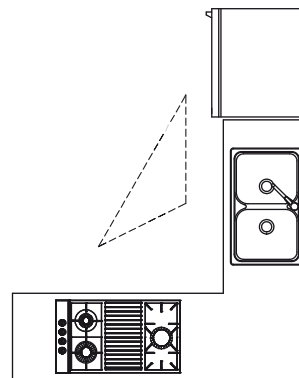

◆ L-Shape

The L-Shape kitchen can be suited to open plan living areas, smaller areas, and long rooms and is a very popular choice. This design enables you to move freely between the various areas within the kitchen and can provide you with great benchtop working space.

STEP 3 - PLAN YOUR KITCHEN

Once you have decided on the basic layout of your kitchen you can begin to plan position your kitchen cabinets by using ours ezikit planning tools.

For more information on planning and designing including kitchen layout tips and suggestions visit www.kubiq.com.my
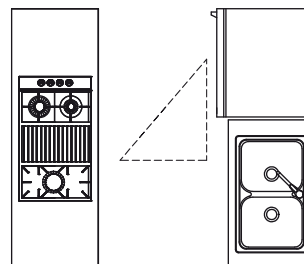

◆ Galley

The Galley style kitchen is a functional design that allow you to reach all areas of the kitchen with minimal walking distance. Providing a great layout for ample cabinets and benchtop space, the Galley style kitchen is a modern and contemporary kitchen design and the choice of many chefs.

![ezikit — Kitchen Planning Kit]

◆ How to design your ideal kitchen with *ezikit*?

Kubiq puts kitchen design into your own hands…literally! *ezikit* is our patented 3D kitchen miniature modeling kit. It is a miniature version of your kitchen, that you can arrange and rearrange until you find the perfect fit for your requirement. Think of a jigsaw puzzle that helps you plan and visualize your actual kitchen in a smaller scale.

Arrange the miniature cabinets to form your preferred design layout.

Once you are satisfied, just take a photo of the design layout for your reference.

Scan the module to obtain the quotation in an itemized detailed list and a transparent cost.

Immediate Quotation and Check List ready to print!

Modular Kitchen Systems

Our kitchen systems have been designed from our years of experience to suit a wide variety of needs and for different kitchen space.

Each module complement each other perfectly with combination of components and accessories that you can add on according to your preferences.

◆ Kubiq's franchise
business opportunity

With Kubiq,
everyone can be a business owner!

Are you interested to join the **Kubiq Franchise Network**? This is the most easy to start and affordable business in the kitchen and wardrobe system industry.

• **LOW START-UP COST** - A profitable franchise business does not mean only a few can afford it.

• **LOW OVERHEAD** - Build a big business with little resources! Don't pay for a massive warehouse and high monthly operational costs – a Kubiq Kiosk only needs 100 square feet of space and you only pay salaries for yourself and an additional employee.

• **TARGETED TO THE MASSES** - Kubiq products are designed for a mass market and you can expect to reap the benefits of high-volume revenues in a timely and visible manner.

• **EASY TO OPERATE** - You don't have to be an expert in the kitchen industry. Instead, rely on our experience of nearly 20 years where we have simplified the entire process and created simple tools that everybody can understand and use.

• **FAST TURN-AROUND TIME** - Instead of spending months following up on an order like any other conventional full-service kitchen provider, the Kubiq concept allows you to conclude an order within a day.

• **LOW CAPITAL OUTLAY** - You don't have to worry about stock purchases and warehousing. All you need is only to pay for material after customers have made an order.

WHY BUY KUBIQ?
☑ LOW PRICE
☑ NO FRILLS
☑ WAIT NO MORE
☑ TRUSTED QUALITY

Why pay someone to do it when you can do it yourself

5 EASY STEPS TO GET YOUR KITCHEN DONE!

Your kitchen is now completed.

SAMPLES AREA

The **Kubiq Kiosk** is a complete business tool to help every entrepreneur in selling the kitchen & wardrobe systems to any homeowner out there!

Need a helping hand?

If you need a little extra help, our professional services are right at your fingertips.

DELIVERY SERVICE

Need help getting your purchases home? At Kubiq, we keep our prices low by excluding delivery from the price of your cabinets. However, arranging prompt delivery at reasonable rates with us is as easy as 1-2-3. Check with our Logistic Partner for rates and delivery times.

INSTALLATION SERVICE

Kubiq's self-involvement concept puts you in control of your own hands-on installation. However, if you would rather trust a professional, we will put you in touch with our team of Registered Installers.

MEASURING SERVICE

For those who do not want to leave anything to chance, Kubiq also provides a measuring service for your kitchen. Check with our team of Registered Installers for rates and further details.

OTHER M&E SERVICES

Electrical, plumbing and ducting services are also available from our recommended contractor.
